

SPECIFICATION

Product Code: 11400

Product Name: AGAROSE FOR ELECTROPHORESIS (M)

Medium electroendo osmosis most widely used for electrophoretic techniques including serum electro phoresis techniques involving antibody containing gels.

Gelling temperature(1.5% solution) 34.5 – 37.5⁰C

EEO 0.16 – 0.19

Maximum Limits of Impurities :

Loss on drying 10%

Sulphated ash 0.7%

CAS No. : 9012- 36- 6 F : 3
